

PRODUCT SPECIFICATION

M u z i n 2 0 0 S F

Application:

- **muzin 200 SF** is a power-water-additive for water-Hydraulic equipments

Quality:

- Silicone-free
- Outstanding emulsionresistance
- High lubrication
- High pressure absorption
- Excellent protection against rust and corrosion
- No foam generation
- Stability over a wide temperature
- Good skin compatibility
- Compatibility with all commercial metals
- Excellent resistant against bacteria

Technical Data

Colour	yellow brown
Density 20 degree C	0,93 g/ml
pH approx. 1:30	approx. 9,2
Rust protection (Herbert test)	rustfree at maximum 1:80
Mixture ratio:	1:30 to 1:50

A2% concentration should be used when usual sealing materials or gaskets exist.

Test Material	Swelling temp. in degree C	Swelling time/hrs	Change of volume	Shore hardness	
				before Swelling	after Swelling
14PA/108	50	100	+1,2%	93	90
22PAB/838	50	100	+1,8%	83	84

The concentration of the **muzin 200 SF**-emulsion should be controled by handrefractometer.
